PROGRAM UNIVERSE

Don't miss the magic of this 20th Anniversary conference on ***Critical Issues Facing Children & Adolescents*** as explorations go deep into the clinical presentations facing you and your colleagues on a daily basis.

Boost your knowledge and explore some of the latest data driving funding, clinical practices, policies and the healthcare system.

You will be able to:

- Take glimpses into some of the newest techniques such as Eye Movement Desensitization & Reprocessing (EMDR) and dig further into more long-standing therapies.
- Enhance your current clinical skills.
- Build-up your arsenal of interventions / skills for treating behavioral health and addiction issues.
- Improve your clinical practice and patient outcomes.
- Access new resources to strengthen your practice.
- Assemble new referral sources not possible through on-line education.

Based upon your feedback and the excitement of this *20th Anniversary,*

MANY NEW FORMATS AND FEATURES

will be premiered.

ALL faculty have been asked to present interactive programs focused on skills and techniques you can implement in your own daily practice. They will present in a variety of formats – workshops, case studies, lectures, experiential exercises, point-counterpoints, panels and more.

You will enjoy:

- The freedom to select from a **wide range of topics** of interest to you.

- A **'Stroll thru Expert Alley'** where you can learn of new programs and resources and confer with colleagues about your own cases.
- **Local experts** nationally recognized for treatment of trauma like that effecting your clients.
- **Pre-conference intensives** on autism, MI and divorce.
- Issues specific and pertinent to your discipline and licensing.
- **Tools** you can use at any level and in any clinical setting - prevention to tertiary intervention - outpatient to intense in-patient and residential treatment.
- Special **entertainment & bonus** features.
- **Sound/music environment.**
- Comfortable, spacious yet **cozy environment** away from work.

For a low cost, you will secure your continuing education credits in a top professional & innovative program which will help you improve your client care quality & outcomes by:

- Increasing your awareness and knowledge of critical behavioral health issues facing youth;
- Gaining effective prevention and intervention working tools to properly intervene with youth facing behavioral/mental health and/or substance use disorder issues;
- Developing strategies for you to more effectively promote healthy growth and development of youth; and,
- Raising your familiarity with current resources that will benefit your practice and learn ways to navigate around existing gaps.

LEARN HOW TO

- Reach and relate to your clients faster & educate their parents on how to have 'difficult conversations'.
- Assess and use a client's executive function.
- Use neuropsych evaluations to your advantage.
- Testify & deal with the courts.
- Conduct effective assessments around commonly faced issues such as anger, substance use / abuse, family functioning, trauma, physical conditions, school progress and more.

TOP MARVELS OF THIS YEAR'S PROGRAM INCLUDE

GREGORY P. HANLEY, PhD, BCBA-D

Dr. Hanley has been applying the principles of learning to improve socially important behaviors of children and adults with and without disabilities for over 20 years. He has published over 80 articles in areas such as the assessment, treatment, and prevention of problem behavior, teaching tactics for children, and evidence-based values. Dr. Hanley is a Fellow of the American Psychological Association, past Editor of Behavior Analysis in Practice (BAP), and past Associate Editor of The Behavior Analyst, the Journal of Applied Behavior Analysis, and BAP.

He worked and trained at the Spurwink School, the Groden Center, and the Kennedy Krieger Institute and is currently a Professor of Psychology and Director of the Behavior Analysis Doctoral Program at Western New England University, an Adjunct Professor of Psychiatry at the University of Massachusetts Medical School, and Senior Clinical Consultant to the New England Center for Children.

DEBRA WESSELMANN, MS, LIMHP

Integrative Parenting: Strategies for Raising Children Affected by Attachment Trauma

Integrative Team Treatment for Attachment Trauma in Children: Family Therapy & EMDR

The Whole Parent: How To Become A Terrific Parent Even if You Didn't Have One

Author / Co-Author of these books, Ms. Wesselmann has specialized in treating trauma resolution and attachment problems for the past 25 years. She is co-founder, trainer and member of the treatment team at The Attachment and Trauma Center of Nebraska. She is part of the team that developed the EMDR and family therapy integrative protocol for the treatment of attachment trauma in children and the integrative parenting method for raising traumatized children. Ms. Wesselmann has been on the faculty at the University of Nebraska at Omaha and collaborates with faculty at the University of Nebraska at Lincoln for research and development of effective trauma treatment methods. She is an EMDR consultant and has been on the faculty of the EMDR Institute since 1998. Ms. Wesselmann has been invited to present or keynote nationally and internationally, including invited presentations at the Menninger Clinic, EMDRIA, and conferences in Rome, Amsterdam, Hamburg, Cologne, Madrid, The Netherlands, Hong Kong, and Costa Rica.

CHRISTIAN MOORE, LCSW

Christian Moore is an internationally renowned author, speaker, and advocate for youth. Coming from a blended family of 12 children, Christian spent most of his childhood years on the streets. By the time he had reached second grade, he had been diagnosed with ADHD, conduct disorder, and severe learning disabilities and he often felt socially isolated in school. He spent time both as bully and victim.

Due to his poor grades and learning disabilities, high school counselors informed Christian that college was not a viable option but, after graduation, an experience volunteering in the inner city gave him a drive to help others and a reason to try.

As a social worker in education, youth corrections, and a homeless program, Christian began to see the need for a new approach in reaching out to today's youth, thus he created the WhyTry Program which uses a multisensory approach to teach resiliency to youth of every learning type.

Over 2 million students have been taught with WhyTry in over 16,000 schools worldwide. Thousands of school districts across the U.S. have had Christian consult on how to increase resiliency, lower dropout, improve school climate, prevent bullying, lower the achievement gap, and improve academics through teaching social and emotional education to all students.

JOHN LIEBERMAN, MA

Lieberman began his career in the field of addiction treatment in 1985. John has held the position of Floor Supervisor, Intake Coordinator, Youth Counselor, Crises Counselor, Intervention Specialist, and Director of National Outreach for two nationally recognized addiction treatment facilities. John has traveled internationally evaluating adolescent treatment centers and has presented at national conferences on the topic of adolescent treatment. John played a vital role in beginning stages of Visions Adolescent Treatment Center.

John has been an expert contributor to: US News and World Report, The Today Show, Teen Vogue, Inside Edition, and the Dr.OZ Show. John is committed to promoting evidence based treatment and providing families with up to date critical information.

ROBERT W. BLOCK, MD, FAAP

Dr. Block, past president of the American Academy of Pediatrics (AAP) and Professor & Chair Emeritus of Pediatrics at The University of Oklahoma School of Community Medicine in Tulsa, will be offering two special programs on violence and abuse at this year's conference on ***Critical Issues Facing Children & Adolescents.***

As a faculty member, Dr. Block has received multiple teaching awards and been awarded multiple honors including the Ray Helfer Society Award in recognition of his work in the field of Child Abuse, and the Award for Outstanding Service to Maltreated Children by the American Academy of Pediatrics. In 2001 and subsequently, he has been named one of the "Best Doctors in America." He was appointed the first Chair of the newly formed sub-board on Child Abuse Pediatrics by the American Board of Pediatrics from 2006-2009 where he continues to serve.

Dr. Block is a diplomate of the American Board of Pediatrics, a Fellow of the American Academy of Pediatrics, a past president of the Oklahoma AAP Chapter, and former member and chair of the Academy's Committee on Child Abuse and Neglect. He is a former member and chair of the United States' Advisory Commission on Childhood Vaccines. Dr. Block is the immediate past President and current Board Chair of the Academy on Violence and Abuse (AVA), the relatively new national organization focused on increasing health care professionals' education, and academic research, on the health effects of violence and abuse.

Dr. Block was appointed Oklahoma's first Chief Child Abuse Examiner in 1989; was past Chair and member of the Oklahoma Child Death Review Board; member of the medical team for the Tulsa Children's Justice Center; and, served as president and member of the board of directors for the Child Abuse Network, Inc. where he is an Emeritus Director. Dr. Block has authored several papers and a textbook, and has delivered over 2,000 public presentations.

AUSTIN COLLIE

Austin Collie is a former NFL wide receiver. He was drafted by the Indianapolis Colts in the fourth round (127th overall) in the 2009 NFL Draft. He played college football for the Brigham Young University Cougars. Austin also played in the NFL for the New England Patriots and in the Canadian Football League (CFL) for the BC Lions. After suffering a series of concussions, Austin is changing his focus from football to concussion awareness. He endeavors to help spread word about the significance of concussions and the importance of proper diagnosis and treatment. He is currently the director of the Cognitive FX Foundation, a non-profit group that targets advancing fMRI concussion research and provides treatment to those who may not be able to otherwise afford it.

THORKIL SONNE

Thorkil Sonne is a Director and President of Specialisterne Foundation, Inc., Chairman of the Specialist People Foundation, and founder of Specialisterne, the first market driven company where the skills of high functioning people with autism spectrum disorder are used to perform high quality services like software testing for corporate customers. Specialisterne, a case study at Harvard Business School, was awarded 'Best large social firm Europe 2006' by CEFEC and named 'One of 12 shocking ideas that could change the World' by Wired Magazine.

Thorkil Sonne has a long background in the private IT and Telecommunications business, most recently with TDC, the incumbent Danish telecommunications firm. Thorkil has previously been president of a local branch of Autism Denmark, and is father of a son with autism. He has received numerous accalaides for his star business ventures such as the Autism Prize 2004 by Autism Denmark; IT Prize 2008 by The Danish IT Industry Association; 'Brave Thinker' by The Atlantic Magazine; and, 'Intelligent Optimist' by Ode Magazine. Thorkil is an Ashoka Fellow and participates in the Globalizer program.

HOTEL ACCOMMODATIONS

Specially discounted rooms are available at the Hilton Salt Lake City Center during this peak time for $179/night. This rate may be extended for contiguous days before and after the event for reservations made by Tuesday, October 11th. After the 11th, reservations will be accepted on a space available basis only.

To reserve your room at this special rate, you may call the Hilton directly at 1-800-HILTONS or 801-328-2000 and mention the ***Critical Issues Conference***. Or go to http://www.hilton.com/en/hi/groups/personalized/S/SLC-CCHH-ESI-20161101/index.jhtml

The Holiday Inn Express, located across the street from the Hilton is also holding special, discounted rooms for attendees of ***Critical Issues*** for $129 per night. To make the reservations you prefer, just contact the hotel directly at 801-521-9500 and be sure to say that you are attending the conference. You are also welcome to use https://www.hiexpress.com/redirect?path=hd&brandCode=ex&localeCode=en&regionCode=1&hotelCode=SLCCC&_PMID=99801505&GPC=CIC

EXTRACURRICULAR ACTIVITIES & EVENTS

This year's conference is in the entertainment and business hubs of downtown Salt Lake City. In addition to City Centre, this conference is surrounded by over sixty restaurants, bars and nightclubs, and steps away from the Energy Solution Arena - home of the Utah Jazz, Capital Theatre and TRAX Light Rail Station. Other local attractions include The Gateway Shopping Center, Hogle Zoo, Family History Center, Historic Temple Square and Utah Olympic Park. For information on Salt Lake City events during your stay, call the Salt Lake Convention & Visitors Bureau at 800-541-4955.

PARKING

For your convenience and in support of clean air, carpooling and the use of TRAX are encouraged. The Main Street TRAX stop is just one block east of the Hilton.

If you prefer to drive, you may park in the Hilton's underground self-parking lot as guests of the conference for only $5/car for up to a 16 hour period or $15/car/24 hours for overnight guests. Valet service is also available. **To avoid congestion when you arrive at the conference, feel free to use any of the three hotel parking entrances – one on West Temple just north of the hotel's main entrance or one of the "American Plaza" entrances on 200 South or 300 South.**

Overnight guests of the Holiday Inn Express will be able to park free in the lot on 6th South and West Temple with shuttle service to and from the hotel.

AIRPORT TRANSPORATION

Transportation to and from the airport to your hotel is available for $10 per person each way via Express Shuttle (801-596-1600) and advance reservations are welcome. You may also use TRAX public transportation for around $2.50 per person each way.

ADA

The founders of this conference and ESI Management Group (conference coordinators) comply with the legal requirements of the Americans with Disabilities Act. If you need special accommodations based on the ADA, please contact ESI Management Group with your requests at least two weeks in advance. Every reasonable effort will be made to provide equitable accommodations in an effective and timely manner.

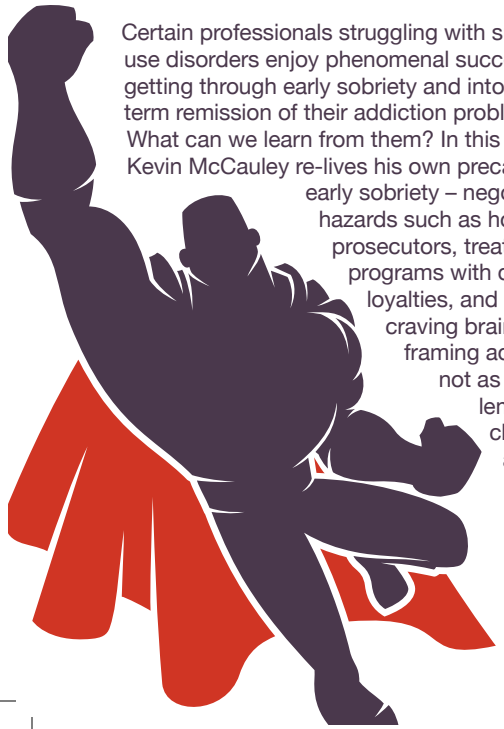
MEMO TO SELF

Institute for Addiction Study



Certain professionals struggling with substance use disorders enjoy phenomenal success rates getting through early sobriety and into long-term remission of their addiction problems. What can we learn from them? In this film, Dr. Kevin McCauley re-lives his own precarious early sobriety – negotiating hazards such as hostile prosecutors, treatment programs with divided loyalties, and his own craving brain. By framing addiction not as a problem of moral choice but as a safety/risk management challenge, Dr. McCauley explains how recovery is neither rare nor random – with the right kind of support, it can even be expected.

This film will prove a valuable tool for therapists, counselors, recovery coaches and clinicians to introduce audiences to the concepts and practices of Recovery Management and for people in early recovery and their families learning how to survive the first year of sobriety. It includes interviews with eminent addiction / recovery experts.

NO LETTING GO

Production: Demian Pictures, Illness Productions
Distributor: Vision Films

Based upon a true story and adapted from the award-winning short film, ILLNESS, this impactful film is a feature drama that follows one family's journey to understand and to cope with the erratic behavior and emotional instability of their middle son Tim.

This is a powerful film that gives voice to millions of families who suffer alone and in silence. This poignant film honestly depicts the potentially devastating impacts of mental health disorders, which affect 1 in 5 children in the United State every year. *(This viewing supported by Summit Community Counseling)*

PLEASURE UNWOVEN

Institute for Addiction Study

Is addiction really a disease? In this video essay, Kevin McCauley explores the arguments for and against this vital debate, reviewing the latest neuroscientific research about addiction along the way. Using the spectacular landscape of Utah's State and National Parks to describe the brain areas involved in addiction, Dr. McCauley turns complex neuroscientific concepts into easy-to-understand visual images that will help people in recovery feel better understood, and their families and friends feel hope that recovery is possible.

THE RAISING OF AMERICA: EARLY CHILDHOOD & THE FUTURE OF OUR NATION

Produced by California Newsreel with Vital Pictures

This new documentary special explores how conditions faced by children and their families during infancy and the early years can literally alter the developing brain and affect a child's future success – in school and in life. Many families are struggling to provide the nurturing environment all young children need to thrive. How does the growing squeeze on parents – for time, for money and for resources – impact the future mental and physical wellbeing of their children? What are the consequences for the nation? And how might we do better? *(This viewing initiated by Summit Community Counseling)*

WE WILL
